Subject: Proposal for Reclassification

Kyle,

I wanted to share with you and the committee a draft proposal for reclassification in the next cycle.

Rationale for this proposal:

The biggest issue with classifications in the OSAA is the current 4A Classification. There are ONLY 30 schools currently. With the Championship Threshold of 30%-40% being considered, this would potentially take 4A from a 16 team bracket to a 12 team bracket for playoffs.

Even if we cheat it up to the "High -End Cap" of the proposed 45%, that is still only 13.5 teams out of a 30 team division. Potentially taking opportunities away from schools and players that will be in tough leagues throughout the 4A Classification.

I have one intention in this proposal; To increase sizes of classifications.

With that there are positive outcomes from this proposal:

Competitive Balance among Schools

Balancing out Private Schools between classifications

Increasing the size of classifications to better support the opportunity for post season play and keeping with the 30%-40% post season percentages.

More geographically located leagues, less travel for rural schools.

This proposal eliminates the 6A classification and restructures the OSAA to a 5A Classification system.

This proposal also considers geographic location of Private Schools, and looks for competitive balance through a multiplier for private schools.

This is not an unusual idea, many state athletic associations do this & the calculator ranges from 1.35 to 1.80 multiplier in most states to a 2.0 Multiplier for single sex schools in Missouri. I looked at a couple of different calculations and landed on a 1.75 multiplier as I felt this spread private schools more equally throughout 5A-2A with 2A obviously having the most Private Schools. This also had little to no impact on 1A as only 5 private schools moved up to the 2A classification.

Again this is simply a draft and jumping off point to begin the conversation when the reclassification committee starts meeting this coming week. I look forward to some great discussions and a lot of hard work from the committee. I worked on this off and on over the summer and it took a few hours to put together.

https://docs.google.com/spreadsheets/d/1dmjoxOfTCv0Im2nihMwALiYE64Ej-dVZNaxyRtFvrwE/edit?usp=sharing

Thanks for the consideration
