Championship Thresholds Task Force

Charge:

The OSAA Executive Board requests that the Championship Thresholds Task Force investigate the following topics:

- Review the current qualification percentages across all sports and activities at and across each classification.
 - Compare team sport qualification percentages within the activity and across all other team sports.
 - Compare individual sport qualification percentages within the activity and across all other individual sports.
 - Compare activity qualification percentages within the activity and across all other activities.
 - Review comparisons between individual sports, team sports and activities.
- Take into consideration the confines of the activities (i.e. matches in a day in wrestling, matches in a day in tennis), the availability of facilities, loss of class time for student-athletes, and the financial burden related to state championship participation by member schools.
- Provide the Executive Board with recommended and/or target qualification percentages for the State Championship Committee to consider when reviewing events and proposals from the membership.

The Task Force shall report back to the OSAA Executive Board which may include policy recommendations.

Meetings:

- Meeting schedule will be determined once the task force is convened. Opportunities for public testimony are to be determined by the task force. Updates will be issued to the membership following each meeting.
