# NOMINATE YOUR MVT

The Oregon Army National Guard and the OSAA will recognize athletes that exemplify what being a teammate is all about:

- Leads by example
- Willing to play any role
- Works hard
- Displays a positive and energetic attitude
- Supports others

Every varsity coach will be asked to identify the MVT of their team. Each MVT will receive a co-branded item that will be presented at schools by National Guard members, when possible. Of all MVTs identified by coaches, one will be selected and recognized for each activity. All MVTs will have the opportunity to apply for one of three \$1,000 college scholarships (one per season).

# GRAND AMBITIONS

OSAA and Playfly serve the same passionate, scholastic esports community and have an incredible opportunity to improve the player experience and create sponsorship opportunities via Oregon Esports.

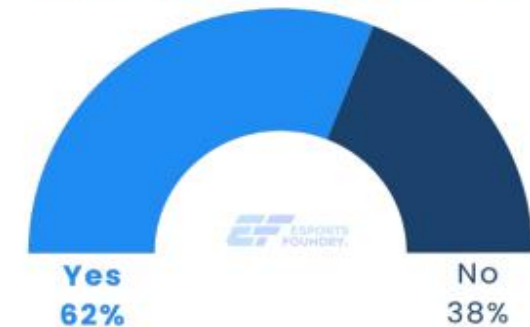

The Oregon Esports program serves as a stepping stone for high school students to reach opportunities for higher education.

Playfly College Esports, formerly NACE Starleague, has previously welcomed over 23,500 students from almost 900 schools nationwide and internationally.

## New Eligibility Request for 2023-24

Administrators use this section to create a new Student Eligibility Request Form. You will need to provide the following information:

- **Student Information** - including name, date of birth, parent/guardian, address, etc.
- **Waiver Type** - type of eligibility waiver (see [OSAA Handbook, Rule 8](#))
- **Enrollment Records** - student's academic history by semester/trimester
- **Additional Correspondence\*** - some eligibility waivers require additional information or correspondence that will need to be uploaded as a separate file and attached to the request (letters, transcripts, etc.)
- **Affirmation Signatures** - in order for your request to be submitted, you must read and agree to an affirmation statement (school administrator and student's parent/guardian or host-family)

### Future Eligibility Notice for Waivers Prior to August 19, 2024

Hardship requests involving future eligibility will not be considered by the Executive Director, Executive Board, or District Athletic Committee. The student must actually be in an ineligible status before any hardship request will be considered except for Age and/or Fifth Year waivers.

# ADs TRUST FINALFORMS

"Final Forms has been a much-appreciated **breath of fresh air** . After being frustrated with our former provider for scheduling and registration, I was immediately impressed with the **ease of navigation and user-friendliness** .

Since we've implemented FinalForms as our official registration platform, **our participation numbers have increased and the feedback from parents has been phenomenal** .

As an athletic administrator, I prefer to work in a **smarter not harder** world, and the red light/green light system makes it **so easy for parents and staff** alike to quickly track down what is aligned with our eligibility and participation standards, and where the shortcomings are.

The FinalForms staff helps out with every step to ensure the successful set-up and carry over from one school year to the next and they are **quick to respond, provide support, and offer assistance** .

Thank you Final Forms!

# Canopy – Pixellot Management Tool

Canopy is a new fleetwide management tool we are using to monitor Pixellot units. It allows us to be more proactive, rather than reactive.

## Internet Status

Are firewalls impacting connections? Is there IP connectivity?

## Power Status

Is the unit on? If the unit is shut off, has it come back on?

## Camera Status & Accuracy

Is the camera online & paired to the VPU.

Canopy has allowed us to identify Pixellots with internet issues. Some can be resolved via remote, and others we'll need to partner with the schools for resolution. **Canopy will continue to monitor every unit on a daily basis to keep the fleet healthy.**

Reboots were a big issue last year. Multiple processes that were creating the reboots unnecessarily have been repaired.

We are now able to be more proactive and identify Pixellots that have camera issues ahead of time.
